

APPLICATION CASE STUDY:

Project Description: Apply Product to Restroom Flooring
Customer: GM Corvette Museum
Location: Bowling Green, Kentucky
Date: February, 2016

PROJECT DETAILS

Project Overview: The Corvette plant gives daily tours, so first impressions and cleanliness is very important to General Motors. The restrooms that were coated are in the Tour Holding area, where guests gather to watch introduction videos. The grout joints in the restrooms were very stained and odors were a major concern.

xGen Product Purchased Through: PPG Bowling Green / Scott Harris, Sales Representative

Customer Contact: Kevin Kronemeyer, Carvan Facilities Director

PRODUCT DETAILS

xGen Product Utilized: X-PROTECT Performance Topcoat - High Gloss

Features & Benefits: X-PROTECT Performance Top Coat floor coating provided a beautiful, glossy, "like new" finish to the bathroom tile and grout floors. Color Seal was used to recoat the grout lines, which will resist dirt, mold and mildew from entering the porous grout. Future cleaning now simplified using just hot water and safe cleaners. The customer is extremely pleased with gloss and shine of the bathroom floors.
